Name _____

Address _____

Triskeles is a non-profit organization that prepares diverse groups of youth for success by teaching them the skills needed to live a healthy life, the value of work, job readiness, leadership, and team work. Since 2002/03, the organization has been providing programs for whole communities to address pervasive issues of poverty such as hunger and food security. Through the lens of sustainability, young people learn to make choices leading to health and well-being for themselves, their communities, and the planet. www.triskelesprograms.org

Our Mission

To create transformative, real-world opportunities for youth through teaching critical life skills, promoting personal growth, and connecting youth to mentors, their communities, and meaningful employment.

Our Vision

We envision a world in which young people have the skills and understanding to enrich themselves, their communities and their planet through healthy lifestyles, meaningful work, and participation in a more just and sustainable economy.

Our Values

Consciousness – As individuals, we must cultivate wellness of body and spirit.

Collaboration — As community members, we must practice collaboration.

Sustainability – We must be mindful and exercise stewardship of resources at all levels.

Creativity – We seek to discover new and innovative approaches and solutions to challenges.
